david.kim.ai@example.com | +1 (555) 456-7890 | Pittsburgh, PA

PROFESSIONAL SUMMARY

Enthusiastic Machine Learning Engineer with 1 year of hands-on experience developing deep learning architectures and statistical models. Solid foundation in Python, data processing with Pandas, database queries in SQL, Docker containers, and reproducible experimentation.

TECHNICAL SKILLS & COMPETENCIES

Python, SQL, Docker, Pandas, Git, PyTorch, TensorFlow, Machine Learning

PROFESSIONAL EXPERIENCE

Machine Learning Research Intern - Cognitive AI Labs (2023 - 2024)

- Implemented transformer and convolutional neural network models using PyTorch, TensorFlow, and Python.
- Preprocessed high-dimensional datasets using Pandas and optimized data loading using SQL.
- Containerized machine learning inference pipelines using Docker for reproducible testing environments.
- Tracked model experiments and codebase revisions following Git version control best practices.

EDUCATION

Bachelor of Science in Artificial Intelligence, Carnegie Mellon University
